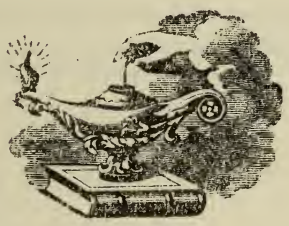
MOUNT ST. MARY'S COLLEGE, EMMITSBURG, MARYLAND

ONE HUNDRED AND FOURTEENTH
ANNUAL CATALOGUE

OF

Mount Saint Mary's College

EMMITSBURG, MARYLAND



FOR THE ACADEMIC YEAR

1921–1922

THE LEGAL TITLE OF MOUNT SAINT MARY'S COLLEGE IS

"THE PRESIDENT AND COUNCIL OF
MOUNT SAINT MARY'S COLLEGE"

College Calendar for 1922-1923

1922

September 6—Ecclesiastical Seminary opens. Spiritual Retreat.
September 14—College opens.
September 15—Mass of Holy Ghost. Classes begin.
September 25—Condition Examinations.
October 18—Spiritual Retreat for Students of College.
November 1—All Saints' Day. Holiday.
November 30—Thanksgiving Day. Holiday.
December 1—Holiday.
December 8—Feast of the Immaculate Conception. Patronal Feast of the College. Holiday.
December 22—Christmas Recess begins.

1923

January 4—Christmas Recess ends.
January 5—Classes resumed.
January 26—Mid-year Examinations begin.
January 31—Holiday.
February 1—Second Session begins.
February 22—Washington's Birthday. Holiday.
March 17—St. Patrick's Day. Holiday.
March 28—Easter Recess begins.
April 5—Easter Recess ends.
April 6—Classes resumed.
May 10—Ascension Day. Holiday.
May 30—Decoration Day. Holiday.
June 4—Corpus Christi Procession.
June 10—Ordinations. Baccalaureate Sermon.
June 11—Solemn Requiem Mass for deceased Benefactors and Students.
June 12—Contest in Elocution.
June 13—Commencement.

Officers and Faculty

Rt. Rev. Monsignor BERNARD J. BRADLEY, A.M., LL.D.
President, Prefect of Studies

Rev. THOMAS J. BURKE, A.M.
Vice-President, Treasurer

Rev. JAMES G. BURKE, A.M.
Secretary

Rev. JOHN L. SHERIDAN, A.M.
Prefect of Discipline

Rt. Rev. Monsignor JOHN J. TIERNEY, A.M., D.D.
Latin, Political Economy

Rev. PETER A. COAD, A.M.

Prefects in the Junior Department

MR. JOSEPH J. McGRANAGHAN, A.B.
MR. GEORGE J. QUAID
MR. BERNARD J. O'CONNOR
MR. JOHN J. BURNS, A.B.
MR. PETER H. SMITH, A.B.
MR. EDGAR A. CONLON

Prospectus

Mount Saint Mary's College was founded in 1808 by Rev. John Dubois, who afterward became Bishop of New York.

In 1830 it obtained its first charter from the legislature of the State of Maryland. The College is registered in full by the Regents of the University of the State of New York. It can be readily seen how great an advantage is connected with this registration, since the Degree of Bachelor of Arts, conferred by Mount Saint Mary's College, entitles the holder to enter at once upon university work.

Since its foundation there has been maintained in connection with the College an Ecclesiastical Seminary. Many of the students of this department defray their expenses, wholly or in part, by teaching in the College.

The institution is directed by an association of secular clergymen who, with several lay professors, compose its faculty.

Its material interests are controlled by a Board of Directors, of which the Archbishop of Baltimore is, *ex officio*, the President.

At the annual meeting of the Council of the College, held on Commencement Day, June 18, 1919, it was unanimously agreed to name a Finance Committee to direct the financial management of the College. This committee shall consist of five members to be appointed by the Council and to be chosen from the lay alumni who have had experience in financial affairs. They shall hold office for two years, or until their successors are appointed.

The Committee shall meet quarterly at the College with the Council for the discussion and determination of such matters as may require attention. It shall not concern itself with, or have any voice in, the studies and discipline of the Institution.

In organizing this committee the Council gladly acknowledges the services of the lay alumni in the past, and invites a more intimate coöperation from them in the future.

The following gentlemen have been appointed to act on the committee:

JOHN F. COGAN, LL.D.,
Brooklyn, N. Y.

RICHARD M. REILLY, LL.D.,
Lancaster, Pa.

J. ROGERS FLANNERY, LL.D.,
Pittsburgh, Pa.

FRANK L. DEVINE, A.B.,
Baltimore, Md.

FRANCIS P. GUILFOILE, LL.D.,
Waterbury, Conn.

Location

The College buildings are beautifully situated on high ground at the foot of the Maryland range of the Blue Ridge Mountains. The location is healthful and convenient of access. The celebrated College and Academy of St. Joseph and the Motherhouse of the Sisters of Charity, founded by Mother Seton, are in the immediate vicinity.

Although the College is accessible by rail by way of Frederick, Hanover, Gettysburg, Hagerstown or Thurmont, the most convenient route is by way of Union Station, Baltimore, and thence over the Western Maryland and Emmitsburg Railroads.

To many parents not the least of the many advantages offered by Mount Saint Mary's College is its quiet seclusion and remoteness from the distractions and dangers of the city—its very situation making it an ideal home of study and moral development. The vicinity of the College is a pleasant summer resort.

Buildings

The buildings are substantially constructed of stone. The class-rooms, study halls and dormitories are spacious, well ventilated and comfortable in both summer and winter. For illumination, electricity is used throughout the buildings.

All the buildings are heated by steam and supplied with the most approved system of lavatories, bath and toilet rooms. In a word, the appointments of the buildings throughout meet all reasonable requirements for health and comfort.

Minim Department

This department is intended for boys between the ages of 12 and 14 years. There is a separate building for their accommodation. This is a fireproof structure of stone, modern in every detail. Here the young boys have their studyhall, class rooms, reading room, refectory and dormitories. They have in addition their own gymnasium, athletic field and recreation grounds. Being thus entirely separated from the older students, they will be able to obtain the extra consideration and attention that go far toward making the small boy's first years away from home less unpleasant.

Library Facilities

The Central Library, which is located temporarily in the Seminary Building, contains about 25,000 volumes embracing standard works of reference on Theology, Philosophy, Scripture, History, Ecclesiastical Law, Literature, Art, Travel, Biography and kindred subjects. There is a valuable collection of Americana and a large number of rare and interesting books showing the progress of the printer's art.

The Students' Reading Room, located in the Main Building, contains several thousand volumes including complete sets of standard English and American authors, various encyclopedias, works of reference and files of a number of magazines and periodicals.

In addition to these, each of the laboratories is equipped with a working library that contains several hundred authoritative works of reference on the Sciences and texts of generally recognized value.

Books are being constantly added in all the departments and an effort is made to keep in touch with the latest and best works on the various subjects.

Laboratories

The Biological Laboratory occupies a room 40 feet x 18 feet on the first floor of the Main Building. The room is well lighted, having exposure on three sides, and gives working space for twenty students at a time. It is fitted with all modern equipment, including twenty compound microscopes, a Minot rotary microtome, a B. and L. projection and drawing apparatus, several aquaria and vivaria, and an excellent collection of microscopic slides.

The department has its own library containing about two hundred volumes on Biology, Botany, Zoology, Physiology and Natural History.

The Chemical Laboratory and lecture room, with the balance and supply rooms, occupy a building 110 feet by 40 feet.

The desks are supplied with all necessary apparatus and reagents and the laboratory is fully equipped with filter pumps, steam-baths, furnaces, etc. Analytical and Specific Gravity balances, storage batteries, motor-generator set and complete physico-chemical apparatus furnish opportunity for work along advanced lines.

The lecture-room equipment for demonstration purposes is complete.

The library of the department contains the standard reference books and dictionaries, a large number of the latest texts and a number of current periodicals. Among the latter are: The Journal of the American Chemical Society, Chemical Abstracts, Journal of Industrial and Engineering Chemistry, Metallurgical and Chemical Engineering and The Transactions of The American Electro-chemical Society.

The Physical Laboratory occupies a large well-lighted room in the Main Building. It is equipped with the necessary apparatus for both elementary and advanced work.

The library of the department contains about 150 volumes of standard reference and text-books. New books are constantly being added.

The Gymnasium

The Gymnasium is a handsome, substantial building, complete in all modern equipment. It contains under one roof, bowling alleys, a large billiard hall, a society hall, baths and a large swimming pool. This building is to the students at all times a source of the greatest pleasure and health.

Recreation Grounds

The recreation grounds are extensive, including several terraces and a beautiful grove. Besides these features there is one of the finest athletic fields in the country. These grounds afford to the students every facility for baseball, football, running, tennis and other outdoor sports.

During recreation hours students are permitted to leave College bounds in the company of a prefect or tutor for walks through the country.

Government

The effective though unobtrusive supervision of the clergy, aided by the constant presence of the prefects, secures the peaceful reign of good order, industrious application to study and obedience to the laws of morality and social propriety. Gentle reproof, kindly correction, the instinct of honor and, above all, moral and religious influences, are generally found effective in

the maintenance of College rules, discipline and study. All are instructed in the doctrines of the Catholic religion and trained to the practice of Christian morality. Vocations to the clerical state are frequent in the higher classes, and the piety and purity of youth are guarded and promoted in every possible way.

Domestic Department

The Domestic Department and Infirmary are under the direction of the Sisters of St. Francis, whose eminently successful work is ample guarantee that the material comforts of the students are at all times carefully consulted. In sickness and in health the students are treated with the greatest kindness and solicitude. The College authorities gratefully acknowledge the invaluable assistance of the Sisters, regarding them as a very important adjunct to the success of the College.

Conditions of Admission

All applicants for admission to the College must present satisfactory letters from their pastors, or other persons known to the authorities. Those coming from other colleges must also present letters from the superiors of those institutions vouching for the good conduct, industry and honorable dismissal of the applicant.

Moreover, all candidates for admission must present certificates signed by the principal of the school formerly attended and containing an exact statement of the work done, viz., subjects studied, number of years pursued, number of hours per week and percentage obtained. The Faculty reserves the right to pronounce such certificates satisfactory or to require the candidate to submit to an examination.

Students will be received at any time. Application blanks may be obtained by addressing the President of the College.

Examinations

As stated elsewhere, the College authorities reserve the right in all cases to require students to undergo an examination at time of entrance.

Monthly written examinations are held in those classes in which the nature of the work permits.

Public examinations take place half-yearly—in January and June. Besides the oral examinations at the end of the school year, there is also a general written examination, by which are determined the first honors of the College, consisting of a gold medal in each class.

Students attending the College for more than one year are promoted in course at the beginning of each scholastic year, if they have attained the required standard in class work, and in the public oral and final written examinations of the preceding year.

Reports of all the classes are posted monthly and are then sent to parents or guardians.

Courses of Study

While keeping in view the idea that a college education is merely a preparation for the more advanced work of the university where young men are trained for the various professions, the Faculty of Mt. St. Mary's has not lost sight of the fact that many young men never enter the universities after leaving college, while others do not even pursue a college course but must be, or are, satisfied if they obtain a business or High School education. With a view to meeting the needs of these various classes of students the College offers the following courses of study :

I. The Classical Course. This course is intended for those students who expect to devote themselves later to the study of Theology or Law ; for those who intend to take up the work of teaching ; and for those who are anxious to secure a general college training before entering upon their work in life. The course leads to the degree of A. B.

II. The Scientific Course. This course is arranged for those whose intention is to prepare themselves for advanced work in scientific or technical schools. The course leads to the degree of A. B. in Science.

III. The Pre-Medical Course. This course is arranged especially to meet the requirements of the Association of American Medical Colleges. According to the rules of this Association, no student shall be admitted to the study of Medicine who has not done two years of college work in addition to the four years of High School. The Pre-Medical Course of Mt. St. Mary's is planned in accord with the requirements stipulated by the above-named Association, giving particular attention to the Sciences of Chemistry, Physics and Biology, and to the study of French and German.

Note : The completion of a standard four-year High School course, or its equivalent (to be determined by an examination), is a necessary condition for admission to any of these three courses.

IV. The High School Course. This course covers a period of four years. The curriculum is so arranged that a student who has completed the course will be fitted to enter any of the three courses offered in the College Department. A diploma is awarded to students who complete satisfactorily the work of this course.

Note 1 : Students desiring to obtain training in Business Subjects may make special arrangements for classes in Stenography, Typewriting and Bookkeeping.

Note 2 : Special classes will be formed for the benefit of those who are not sufficiently advanced to enter the High School; but under no circumstances will students be admitted who have not completed the work of the Seventh Grade in the public or parochial schools.

Degrees

The Degree of Bachelor of Arts is conferred on those students who have followed and completed either of the regular collegiate courses, i. e. the Classical Course or the Scientific Course, subject to the following conditions:

1. At least the last year of the course must have been made in this College.

2. Each candidate, both in the January and June examinations in all the classes of the Senior Course must have attained the standard required by the rules for graduation.

3. He must prepare a literary essay or discourse satisfactory to the Faculty, and deliver the same in public on Commencement Day, if requested to do so.

The Degree of Master of Arts is conferred on those students who, for at least two years after taking the degree of A.B., have devoted themselves to additional studies, and submit to the Faculty a satisfactory thesis dealing with some one of the subjects studied. This thesis must be presented not later than April 1st. **One year's residence is required.**

College Sessions

The first session of the scholastic year 1922–1923 will begin September 15, and will extend to the last day of January. The second session will begin on the first day of February and extend to the second Wednesday in June. Both sessions are opened with Mass at 8:30 A. M. at which time all students are required to be present.

The Ecclesiastical Seminary will open with a retreat beginning September 6th, at 7:00 P. M. All students of the Seminary must be present at noontime on that day.

The Christmas recess begins December 22, 1922 and ends on the evening of January 4, 1923. The Easter recess begins on Wednesday of Holy Week and ends on the evening of Thursday after Easter Sunday. No student will be permitted, except for reasons of absolute necessity, to absent himself from College at any other time during the school year while classes are in progress.

Students returning late in September, leaving before the date set for the beginning of a recess, or failing to report promptly at its close, forfeit their right to compete for prizes and honors. They may, moreover, subject themselves to suspension or dismissal unless they present a written explanation, signed by parent or guardian, which is satisfactory to the College authorities. The College asks from parents and guardians a most cordial coöperation in this as well as in all other matters pertaining to College discipline and wishes to call their attention to the necessity of insisting that those under their charge be trained in habits of promptness and punctuality.

Note: Under no circumstances will students be permitted to remain at the College during the summer vacation.

Recreation Days

Besides the regular weekly holidays—Wednesday and Saturday Afternoons—the Sundays and Holy Days of Obligation during the year and the Christmas and Easter holidays, the following are the only days on which classes are regularly suspended:

The day following Thanksgiving Day.
The day following the close of the mid-year examinations.
Washington's Birthday.
Saint Patrick's Day.
Decoration Day.

Charges—Senior Department

Board, Tuition, Use of Room by *one*, Washing and Mending of Linen, Medical Attendance and Medicines, per year	$500.00
Board, Tuition, Use of Room by *two*, Washing and Mending of Linen, Medical Attendance and Medicines, per year	475.00
Board, Tuition, Washing and Mending of Linen, Medical Attendance and Medicines, per year	400.00
Use of Gymnasium and Athletic Fee	15.00
Tuition—for day pupils, per year	100.00

Private Rooms

The College has a limited number of private rooms available. However, as the demand for the private room is ever on the increase, the College finds it necessary to say that no room for the coming year will be reserved unless proper application is made before the first day of August. After that date a room will be considered vacant and will be given to the first applicant provided his character, class standing and application so warrant. In case of several applications coming at the same time the preference will be given in the order of seniority of classes.

Charges—Minim Department

Board, Tuition, Washing and Mending of Linen, Medical Attendance and Medicines, per year	$400.00
Use of Gymnasium and Athletic Fee	15.00

Extra Charges

Any Modern Language, taken out of course, per year.	$10.00
Music (except Piano), per year	50.00
Lessons on Piano and use of instrument, per year.	60.00
Laboratory Fee (Chemistry), per year	20.00
Laboratory Fee (Physics), per year	10.00
Laboratory Fee (Biology), per year	10.00
Shorthand, taken out of course, per year	20.00
Typewriting, taken out of course, per year.	20.00

Regulations

Patrons are requested to give our regulations careful attention before placing their sons with us so that there may be no future misunderstanding. Students are accepted only under the conditions given below.

Bills are rendered twice a year, in *February* and *September*, and *must* be paid in advance. When bills are not paid upon presentation, the College reserves to itself the privilege of issuing a draft for the amount, and the non-acceptance of such draft will be considered a notice that student is withdrawn, unless a satisfactory explanation is made.

Every student from outside the United States must have a guardian or representative in this vicinity, who shall be responsible for the prompt and regular payment of his expenses, and with whom the College may readily correspond when necessary.

Every student should have upon entering, at least two suits of heavy and two suits of light outer clothing, three suits each of heavy, medium and light under-clothing, a set of table napkins, towels, etc. *These should all be plainly marked with full name.*

In regard to **Pocket Money**, the College would suggest to parents and guardians the wisdom of economy. The College will not advance money for this purpose, preferring to leave the matter entirely and directly between parents and guardians and the student. In emergency it would be well to remember that money may be easily transmitted by Western Union Telegraph.

Books and stationery are *extras* and will not be included in the regular statement. They will be provided at current prices only when a deposit to cover probable cost of same is made by the parent or guardian. *Positively no money or other articles will be furnished unless such deposit has been made with the Treasurer, in advance.*

COLLEGE CHURCH

Parents and guardians must see the reasonableness of this regulation and should, therefore, either supply their boys with all necessary articles or make, in advance, the above-mentioned deposit with the Treasurer.

There is no extra charge for the services of the College Physician or for medicines in ordinary cases of sickness. In serious or protracted illness, extra service, costly drugs, services of trained nurses, etc., this added debt must be met by parents or guardian of the sick student.

The College will not be responsible for books, clothing or other belongings of any of the students.

When bills are not paid promptly, that is in September and February, as mentioned above, the student will not be allowed to continue his studies until all accounts are paid. Checks should be made payable to *Mount Saint Mary's College*, and addressed to the *Treasurer's Office*.

Students will not be accepted for a period less than one session. They may enter at any time during a session and be charged from the first of the month in which they enter. *No deduction* will be made should they withdraw before the end of the session, except in case of protracted illness.

The College reserves the right to demand the withdrawal of any unsatisfactory or undesirable student at any time during the year.

Epistolary correspondence, books and other reading matter are at all times subject to the censorship of the College authorities.

Patrons can never authorize any exemption from the rules of the institution.

While parents and guardians are at all times welcome, in the interest of discipline, good order and scholarship, we would suggest the timeliness of making visits on the regular holidays—Wednesday and Saturday afternoons, and on Sundays. Coöperation in this regard will greatly aid in training the student along proper lines of study and fidelity to duty.

Visitors are requested not to ask permission for students other than their own sons. To do so places us under the unpleasant necessity of refusing such requests.

Students will not be permitted to leave the College upon receipt of telegrams. Written requests should be made. In case of emergency all communications should be addressed to the President.

Every application for a private room should be accompanied with a deposit of $10.00 which will be applied to the rental of the room when occupied. Should the number of applications be greater than the number of rooms at our disposal, we will refund

the deposit or place it to the ordinary account of the student. All occupants of rooms must deposit with the Treasurer $5.00 prior to occupying a room. This deposit is against damage, above the ordinary wear and tear, to the room. No one occupies a room until this is paid.

Parents are requested to see that their sons are careful to have their eyes attended to and dental work done during the periods of vacation since credits are greatly diminished if students are absent from class due to neglect in this matter.

Attention is directed to the fact that the required number of credits cannot be earned unless the student is present at every class. Parents are therefore urged not to request their sons to absent themselves at any time other than the regular periods of vacation. Failure in this regard will compel the authorities, acting in conjunction with the various Educational Associations, to declare the credits forfeited, causing the student to lose the whole year's work. We courteously request your very earnest coöperation in this regard.

Students will not be permitted to answer telephone calls or to entertain visitors at any time other than recreation periods. In cases of necessity telephone calls should be addressed to the President.

Students whose accounts are not paid in full forfeit all claim to collegiate honors or distinctions. Candidates for degrees will not be given same unless all indebtedness to the College is paid in full.

For catalogue and further information apply to

Rt. Rev. Monsignor B. J. Bradley, A. M., LL. D.,
Mt. Saint Mary's College,
Emmitsburg, Frederick Co., Maryland.

N. B.—The College is equipped with Bell long-distance telephone.

Outline of Courses in the Collegiate Department

BIOLOGY I. General Biology. Six periods a week throughout the year, four of which are devoted to laboratory work and two to lectures.

The following points are discussed: Scope of Biology; Origin of Life; Cells and Cell Theory; Cell Multiplication; Reproduction; Development of the Fertilized Egg; Mechanics of the Living Machine; Variation; Adaptation; The Theory of Evolution; Classification and Distribution.

Detailed laboratory work on the Amoeba, Paramoecium, Hydra, Earthworm, Starfish, Crayfish, Honey Bee, Locust, Frog and Fish, and a selection of Plant Types.

Text: Conn.

This course is required of all students in Freshman Pre-Medical. Optional with others. Pre-requisite: A course in elementary Biology.

CHEMISTRY I. Advanced Inorganic Chemistry and Qualitative Analysis. Six periods a week throughout the year, four of which are devoted to laboratory work and two to lectures.

This course includes a thorough review of the fundamental principles of the science and the descriptive chemistry of the elements.

The laboratory work consists of a number of preliminary experiments followed by the analysis of various unknown inorganic substances including simple inorganic salts, mixed salts, minerals and alloys.

Careful reports of observations and deductions are required.

Texts: Holleman–Cooper, Advanced Inorganic Chemistry; Noyes, Qualitative Analysis.

This course is required of all students in Freshman Pre-Medical and Scientific Courses. Optional with others.

Arrangements may be made for additional laboratory work in this course.

CHEMISTRY II. Organic Chemistry. Six periods a week throughout the year, as in Chemistry I.

A course covering the general principles of Organic Chemistry, methods of preparation and reactions of organic compounds.

The needs of Pre-Medical students will be given special consideration.

The laboratory work includes the study of the operations of Experimental Organic Chemistry and the preparation and purification of about thirty-five compounds.

This course is required of Pre-Medical students in Sophomore. Optional with all others. Pre-requisite: Chemistry I.

Texts: Norris, Organic Chemistry and Experimental Organic Chemistry.

Arrangements may be made for additional laboratory work in this course.

CHEMISTRY III. Inorganic Chemical Preparations.

A laboratory course based on Blanchard's Synthetic Inorganic Chemistry. The student is required to submit an account of each experiment and a sample of the product. Quiz classes will be held frequently.

Pre-requisite: Chemistry I.

Text: Blanchard, Synthetic Inorganic Chemistry.

CHRISTIAN DOCTRINE I. Two periods a week throughout the year.

Dogma: God the Father and Creation; God the Son and Redemption; God the Holy Ghost and Sanctification. Moral: General Principles of Morality; Virtue and Sin; The Commandments of God; The Commandments of the Church; Evangelical Counsels and Beatitudes.

Text: Manual of Christian Doctrine by the Brothers of the Christian Schools, Parts I and II.

CHRISTIAN DOCTRINE II. Two periods a week throughout the year.

Worship; Means of Sanctification; Grace; Prayer; The Sacraments; The Sacramentals; The Liturgy.

Text: Manual of Christian Doctrine by the Brothers of the Christian Schools, Part III.

CHRISTIAN DOCTRINE III. Two periods a week throughout the year.

Apologetics; Truth of the Christian Religion; Truth of the Catholic Religion; Marks of the Church; Nature, Constitution and Authority of the Church; Accusations brought against the Church.

Text: Schouppe, Abridged Course of Religious Instruction.

CHRISTIAN DOCTRINE IV. Two periods a week throughout the year.

Dogma: Scripture; Tradition; Doctrinal Authority of the Church; God and His Attributes; The Holy Trinity; Creation; Original Sin; The Incarnation; Grace; The Sacraments; The Virtues; The Four Last Things.

Text: Schouppe, Abridged Course of Religious Instruction.

DRAWING, MECHANICAL I. Four periods a week throughout the year.

The use of drawing instruments. Single-stroke Lettering. Geometric Constructions. Orthographic Projection completely studied with the legitimate use of models. Problems relating to points, lines and planes in space, and to sections, intersections and developments of solids with practical applications.

Isometric Projection. Simple working drawings, together with a brief study of Perspective.

Text: To be announced.

This course is required of all students in the Scientific Course. Optional with all others. Pre-requisite: Mathematics I.

ELOCUTION. Instruction in the art of speaking is given in all classes, one period a week throughout the year. Students are required to memorize and recite selections from various authors and to prepare frequently talks for delivery in class. Special attention is given to extemporaneous speaking and to methods of debating.

The work of the classes is supplemented by frequent debates, entertainments and dramatic performances given by the Philomathean and Purcell Lyceums.

A public contest, open to all students in the Collegiate Department, is held annually. A gold medal is awarded the best speaker.

ENGLISH I. Three periods a week for two terms.

FIRST TERM—Practical Rhetoric, Quackenbos, Part I. Authors to be read: Irving, Poe, Cooper, Hawthorne. Composition every week.

SECOND TERM—Practical Rhetoric, Quackenbos, completed. Authors to be read: Robert Hayne, Speech on the Tariff; Webster, Reply to Hayne; Longfellow, Lowell, Whittier. Composition as in first term.

ENGLISH II. Three periods a week for two terms.

FIRST TERM—English Literature—The Nineteenth Century. History of English Literature, Halleck. English Poems—The Nineteenth Century, Bronson. Selected Authors in Prose.

SECOND TERM—English Literature, from 1660 to 1800. History of English Literature, Halleck. English Poems—The Restoration and the Eighteenth Century, Bronson. Selected Authors in Prose.

ENGLISH III. Three periods a week for two terms.

FIRST TERM—English Literature from 1550 to 1660. History of English Literature, Halleck. English Poems—The Elizabethan Age and Puritan Period, Bronson. Prose Selections.

SECOND TERM—English Literature from 450 to 1550. History of English Literature, Halleck. English Poems—Old English and Middle English Periods, Bronson. History of the English Language, Lounsbury.

ENGLISH IV. Three periods a week for two terms.

FIRST TERM—The Essentials of Poetry. The Philosophy of Literature.

SECOND TERM—The Drama. Its Origin and Development. Special Study of the Historical Plays of Shakespeare.

ETHICS I. Two periods a week throughout the year.

General Ethics: Human Acts. The End and Morality of Human Acts. The Difference between Good and Evil. The Essence and Source of Morality. Virtue and Vice. Law: Natural; Positive. Moral Conscience.

Special Ethics: Duties of Man; towards Himself: (Body, Soul); towards External Things. Duties of Men towards each other. Rights: of Defense; of Property; of Liberty; of Conscience. Society: Domestic; Religious; Civil. Authority. Forms of Government. Judiciary Power. Capital Punishment. International Relations. Treaties. War.

Texts: Hickey; Cronin.

FRENCH I. Five periods a week throughout the year.

Intermediate French. Fasquelle's French Course, 25 lessons, Part I. One Hundred Lessons, completed and reviewed. Abundant Written and Oral Exercises. Class Recitations.

Pre-requisite: Elementary French I and II.

Reading: Halévy, "L'Abbé Constantin" or Lavisse, "Histoire de France."

FRENCH II. Five periods a week throughout the year.

Intermediate and advanced French. Fasquelle's Advanced French Course, Part II, begun and completed. Abundant Written and Oral Exercises. Prose Composition. Class Recitations. Reading: Selections from French Classical Writers.

Pre-requisite: French I.

GEOLOGY I. One period a week throughout the year.

This course includes an account of the origin of the surface features of the earth and a brief outline of the earth's history.

The course is illustrated by lantern slides and an excellent collection of geological specimens.

Text: To be announced.

GERMAN I. Five periods a week throughout the year.

Grammar reviewed. Translation of Selected German Classics. Writing from Dictation. Composition. Conversation.

Text: To be announced.

GERMAN II. Five periods a week throughout the year.

Grammar for reference. The work of the previous course is continued, the aim being to give the student a reading knowledge of the language and a familiarity with the best examples of German Literature.

Text: To be announced.

GREEK I. Three periods a week for two terms.

FIRST TERM—Homer's Iliad, Books I-IV. Study of Homeric Dialect. Mythology. Grammar for Reference. Practice in Greek Composition.

SECOND TERM—Plato's Apology and Crito. Xenophon's Memorabilia. Study of Historical References, particularly with regard to the Life of Socrates. Frequent Exercises in Composition.

GREEK II. Three periods a week for two terms.

FIRST TERM—Demosthenes' De Corona. Historical Study to bring out meaning of text. Grecian Oratory. Composition.

SECOND TERM—Study of the Greek Drama. Sophocles' Oedipus Rex or Antigone. Euripides' Hecuba.

HISTORY I. Two periods a week throughout the year.

History of Greece. Prehistoric Greece. Homeric Culture. Character of the Greek City-State. Sparta. Athens. Greek Colonization. The Persian Wars. The Athenian Empire. Pericles. The Peloponnesian War. The Supremacy of Sparta. Philip and Alexander. The Roman Conquest. Greek Orators, Poets, Artists and Statesmen. Greek Philosophy. Greek Culture and the Roman World.

HISTORY II. Two periods a week throughout the year.

History of Rome. Foundation of the City. The Monarchy. The Republic. Patricians and Plebeians. Gallic Invasions. The Struggles with Carthage. Constitution of the State. The Roman Army. The Rise of Pompey. Julius Caesar: His Conquests; His Death. The Establishment of the Empire. Rome under the Caesars. The Introduction of Christianity. Constantine. The Division of the Empire. The Barbaric Invasions. The Fall of the Empire.

HISTORY III. Two periods a week for one term.

History of Western Europe from the Fall of the Roman Empire to the Opening of the Sixteenth Century. Western Europe before the Barbarian Invasions. The German Invasions and the Break-up of the Roman Empire. The Rise of the Papacy. Charles Martel and Pepin. Charlemagne. Feudalism. The Development of France. England in the Middle Ages. Germany and Italy in the Tenth and Eleventh Centuries. The Popes and the Emperors. The Crusades. The Medieval Church. The Culture of the Middle Ages. The Hundred Years' War. The Popes and the Councils. The Italian Cities and the Renaissance.

HISTORY IV. Two periods a week for one term.

History of Western Europe from the Opening of the Sixteenth Century to the Present Day. Germany before the Protestant Revolt. Martin Luther and His Revolt against the Church. Course of the Revolt in Germany. Protestantism in Switzerland and England. The Catholic Reformation. The Thirty Years' War. England and Constitutional Government. France under Louis XIV. Rise of Russia and Prussia. The Expansion of England. The French Revolution. The First French Republic. Napoleon Bonaparte. Europe after the Congress of Vienna. The Unification of Italy and of Germany. Europe of To-day.

HISTORY V. Two periods a week for one term.

The Political and Social History of Modern Europe. The Era of Metternich, 1815–1830. The Industrial Revolution. Democratic Reform and Revolution, 1830–1849. The Growth of Nationalism, 1848–1871. Social Factors in Recent European History, 1871–1914. The United Kingdom of Great Britain and Ireland, 1867–1914. Teutonic Europe, 1871–1914. The Russian Empire, 1853–1914. The Dismemberment of the Ottoman Empire, 1683–1914. The New Imperialism and the Spread of European Civilization in Asia and in Africa. International Relations and the Outbreak of the War of the Nations.

HISTORY VI. Two periods a week for one term.

The Political History of the United States. The Colonies. Revolution, Independence, and Union. Republic. Democracy and Slavery. Rupture and Reconstruction. The United States a World Power.

LATIN I. Five periods a week for two terms.

FIRST TERM—Letters of the younger Pliny (Platner). Latin Prosody (Casserly); Latin Prose Composition (Weatherhead).

GYMNASIUM

SECOND TERM—Cicero's De Senectute (Bennett); Ovid's Metamorphoses, Book XI. Prosody and Composition as in first term.

LATIN II. Five periods a week for two terms.

FIRST TERM—Horace, Selected Odes and Epodes. Ovid, Metamorphoses. Rules of Prosody applied to Scanning of Verse. Practice in the Construction of Hexameter and Other Lines. Latin Composition.

SECOND TERM—Horace, Epistles and Satires. Prosody as in first term. Germania and Agricola, Tacitus. Frequent Reference to Rules of Grammar. Composition.

MATHEMATICS I. Three periods a week for two terms.

FIRST TERM—College Algebra. The theory of Logarithms is taken up thoroughly, together with problems on Series: Summation, Exponential, Logarithmic. A thorough drill on the principles of Determinants is insisted upon. Many problems in linear equations as well as in equations of the higher order are solved.

Text: Fischer and Schwatt, Complete Secondary Algebra.

SECOND TERM—Solid Geometry. In this course is studied the subject matter presented by standard college texts. Theorems and problems relating to planes and lines in space. Polyhedrons. Cylinders. Cones. Frusta. Spheres. Spherical triangles and segments. Inventional methods are emphasized by many original problems.

Text: Milne, Solid Geometry.

MATHEMATICS II. Four periods a week for two terms.

FIRST TERM.—Spherical Trigonometry. Field work in Surveying. A thorough drill is given on the right and quadrantal triangles, the oblique-angled triangle, the ambiguous cases and the area of the spherical triangle, as well as in the application of original formulas by means of spherical excess. The utility of this science in Astronomy and Navigation is constantly placed before the student.

SECOND TERM.—The aim of this part of the course is to familiarize the student with the analytical methods of investigation; hence in addition to the study of Loci and their equations, the different systems and transformation of coordinates and the general equations of the second degree, the straight line, the circle, the parabola, the ellipse and the hyperbola are taken up.

Text: Milne.

MATHEMATICS III. Four periods a week throughout the year.

Solid Analytical Geometry. General and Higher Plane Curves. Differential and Integral Calculus with applications.

Text: To be announced.

This course is intended for Scientific Students. Prerequisite: Mathematics I and II.

PEDAGOGY I. Two periods a week for one term.

Psychology in Education. Classification of Mental Phenomena. Mental Development of Children. The Period of Adolescence. The Psychology of Learning. The Psychology of School Subjects.

Text: Dexter and Garlick.

PEDAGOGY II. Two periods a week for one term.

High School Organization and Classroom Management. Class Management. School Discipline. Student Government. Student Activities. Differentiation of Courses. Electives. School Hygiene and Sanitation.

Text: To be announced.

PEDAGOGY III. Two periods a week for one term.

Principles of Teaching and Special Methods in High School Subjects. The Technique of Instruction. Special Methods as applied to Subjects in the High School Curriculum. Observation of High School Teaching. Practice in Teaching.

Text: To be announced.

PEDAGOGY IV. Two periods a week for one term.

History of Education. Oriental Education. Education among the Greeks. Education among the Romans. Medieval Education. Monasticism. The Renaissance. Humanistic Studies. Great Educators. Present-Day Methods. Historical Development of American Secondary Education.

Text: McCormick.

PHILOSOPHY I. Five periods a week throughout the year.

Logic: Simple Apprehension. Ideas. Predicables. Categories. Classification and Use of Terms. Definition: Real; Nominal; Rules. Division. Judgment. Propositions: Their Nature and Division; Opposition; Conversion. Equivalence of Propositions.

Reasoning. The Syllogism: Its Rules and Division. Figures and Moods of Syllogism. Kinds of Syllogisms. Induction. Analogy. Analysis. Synthesis. Fallacies. Method. Disputation and Rules for same.

Truth and Certitude—Of Simple Apprehension; Of Judgment; Grades. Causes of Error. Ignorance. Doubt. Opinion. Skepticism: Metaphysical; Physical; Moral. Means: Consciousness; the Senses. Objectivity of Ideas. Kant's Synthetic Judg-

ment a priori. Intellect. Reason. Memory. Human Teaching. Belief. Criterion of Truth. Sentimentalism. Traditionalism. Objective Evidence. Universals. Nominalism. Conceptualism. Ultra-realism. True Doctrine on Universals as explained by St. Thomas.

Metaphysics — Ontology. Being. Essence. Existence. Attributes of Being. Unity. Individuality. Identity. Distinction. Goodness. Evil, a Privation. Substance. Person. Accidents. Quantity. Quality. Relation. Action. Passion. Time. Causality. Principles of Causality. Cosmology—The World; Its Origin; Cause; End. Properties of Bodies. Constitution of Bodies. Atomism. Dynamism. Monism. Hylomorphism. Physical Laws. Miracles. Disputations each month.

Text: Hickey.

PHILOSOPHY II. Five periods a week throughout the year.

Psychology—Life in General. Vegetative Life. Origin of Organic Species. Sensitive Life. Essential Difference between Animals and Plants. Sensibility. External and Internal Senses. Instinct. Sensitive Appetite. Intellectual Life. Intellect: Its Nature and Object. Origin of Ideas. Criticism of Various Systems. Will: Its Object and Acts. Freedom of Will. The Human Soul: Its Nature and Origin; Relation to Body; Union with Body. Traducianism. Creationism. Simplicity, Spirituality and Immortality of the Human Soul.

Natural Theology—The Existence of God. Metaphysical, Physical and Moral Arguments. Atheism. Agnosticism. Materialism. The Nature of God. His Attributes: Absolute and Relative. The Unity of God. Pantheism.

Text; Hickey.

PHILOSOPHY III. Four periods a week throughout the year.

The aim of this and the following course is to present in briefer form, for the benefit of Scientific Students, matter covered in Philosophy I. and II. and History of Philosophy I. and II.

This course treats of Experimental Psychology, Logic, Aesthetics and Ethics.

Text: Dubray.

PHILOSOPHY IV. Four periods a week throughout the year. (See note under Philosophy III.)

This course takes up the consideration of Epistemology, Cosmology, Rational Psychology, Theodicy and Outlines of the History of Philosophy.

Text: Dubray.

PHILOSOPHY, HISTORY OF, I. Two periods a week for one term.

Ancient Philosophy. Oriental Philosophy: Babylonia and Assyria; Egypt; China; India; Persia. Greek and Greco-Roman Philosophy: Pre-Socratic Philosophy; Socrates and the Socratic Schools; Post-Aristotelian Philosophy. Greco-Oriental Philosophy: Greco-Jewish Philosophy; Neo-Pythagoreanism and Neo-Platonism.

Text: Turner.

PHILOSOPHY, HISTORY OF, II. Two periods a week for one term.

Philosophy of the Christian Era. Patristic Philosophy; Heretical Systems; Ante-Nicene Fathers; Post-Nicene Fathers. Scholastic Philosophy: The Predecessors of St. Thomas; St. Thomas of Aquin; After St. Thomas. Modern Philosophy: Transition from Scholasticism; From Descartes to Kant; From Kant to our own Time. Contemporary Philosophy.

Text: Turner.

PHYSICS I. General Physics. Six periods a week throughout the year.

General Physics. Properties of Matter. Mechanics. Heat. It is the aim to impart a sound philosophical knowledge of the phenomena and the laws governing them, together with a keen method of attack in the solution of practical problems. The laboratory work in this course consists of quantitative experiments selected from a number of standard texts.

Lectures and Recitations, two periods a week. Laboratory, four periods a week.

Text: Carhart and Chute, College Physics.

This course is required of students in Pre-Medical and Scientific Courses. Pre-requisite: Elementary Physics.

PHYSICS II. General Physics. Six periods a week throughout the year.

Electricity. Sound. Light. A continuation of Physics I, with emphasis placed upon the physical interpretation rather than the mathematical. Magnetism, Electrostatics and Electrodynamics are constantly compared, differentiated and correlated. Likewise Sound and Light. Practical problems.

The laboratory experiments are quantitative in character.

Lectures and recitations two periods a week. Laboratory, four periods a week.

Text: To be announced.

This course is required of Scientific students. Pre-requisite: Physics I.

PHYSICS III. Advanced Mechanics and Heat. Five periods a week throughout the year.

A thorough drill in the fundamental theories with special reference to Statics, Kinetics and Thermodynamics. Algebraic and graphic methods together with vector analysis are taught.

Laboratory, four periods a week; Lecture, one. Elective for all students. Pre-requisites: Physics I and II; Mathematics III.

POLITICAL ECONOMY I. Three periods a week throughout the year.

Definition of Political Economy. Method. Schools. Study of Economics. Wealth. Value. Price. Production. Factors of Production: Nature; Labor; Capital. Exchange. Money: Origin and Development; Kinds; Functions; Coinage. Money and Prices. Gresham's Law. Bimetallism. Monometallism. Inflation and Contraction. Depreciation. Multiple Tender. Credit. Banks and Banking. History of Banking. Postal Savings Banks. International Trade. Balance of Trade and Balance of Accounts. Customs. Duties. Protection and Free Trade. Transportation. Railroads. Government Ownership. Corporations. Trusts. Government. Revenue. Taxation. Public Debts. Insurance. Consumption. Spending. Saving. Investing. Poverty. Distribution. Rent. Interest. Profits. Wages.

Text: Burke.

Outline of Courses in the High School Department

BIOLOGY I. Five periods a week throughout the year.

Reasons for the Study of Biology. The Environment of Living Things. The Composition of Living Things. Protoplasm and the Cell. Flowers and their Work. Fruits and their Uses. Seeds and Seedlings. Roots and their Work. The Structure and Work of the Stem. Leaves and their Work. The Various Forms of Plants. Reproduction in Plants. How Plants benefit and harm Mankind. The Relations of Plants and Animals. The Protozoa. The Metazoa; Division of Labor. Worms. Crustacea. Insects. Mollusks. Fishes. Amphibia. Reptiles. Birds. Mammals.

Text: Hunter's Essentials.

BOOKKEEPING I. Five periods a week throughout the year.

The Complete Accountant (O. M. Powers), from beginning as far as Wholesale Dry Goods.

BOOKKEEPING II. Five periods a week throughout the year.

The Complete Accountant, Completed. Lumber. Corporation. Banking.

CHEMISTRY I. General Inorganic Chemistry. Five periods a week throughout the year.

A course in the fundamental principles of the science together with the descriptive chemistry of the non-metallic elements and the common metals. The lectures and demonstrations are supplemented by quiz and laboratory work.

In the laboratory the student illustrates the principles given him in the lecture room. Special attention is given to neatness and accuracy, and the student is required to keep a complete record of his work.

Text: McPherson and Henderson, Elementary Study of Chemistry. Laboratory Directions compiled by the instructor.

CHRISTIAN DOCTRINE. In all classes of the High School Department, two periods a week throughout the year are devoted to instruction in Christian Doctrine. The texts are chosen from the Course of Religious Instruction by the Brothers of the Christian Schools, Nos. I to IV, inclusive.

ELOCUTION. Elocution is taught once a week in all classes of the High School Department. Particular attention is given to correct reading and enunciation, with occasional opportunities for practice in extemporaneous speaking. The work of the classes is seconded by the Dubois Literary Society.

INTERIOR OF GYMNASIUM

ENGLISH I. Five periods a week for two terms.

FIRST TERM—Wood, Practical Grammar and Composition. Sentences. Parts of Speech. Elements of the Sentence. Phrases and Clauses. Frequent Exercises in Composition. Authors: Longfellow, Selections from Hiawatha; Hawthorne, Tanglewood Tales.

SECOND TERM—Wood, Practical Grammar and Composition. Sentences. Capitalization and Punctuation. The Paragraph. Letter-Writing. The Whole Composition. Words; Spelling; Punctuation. Exercises in Composition. Authors: Hawthorne, Wonder Book; Cooper, Pathfinder; Longfellow, Tales of a Wayside Inn, Minor Poems.

ENGLISH II. Five periods a week for two terms.

FIRST TERM—Brooks, English Composition, Book I. Authors; Lowell, Vision of Sir Launfal; Hawthorne, Twice Told Tales; Cooper, Last of the Mohicans.

SECOND TERM—Brooks, English Composition, Book I, completed. Authors: Poe, The Raven, Fall of the House of Usher; Irving, Rip Van Winkle; J. P. Kennedy, Rob of the Bowl. Exercises in English Composition.

ENGLISH III. Five periods a week for two terms.

FIRST TERM—Brooks, English Composition, Book II. Authors: Tennyson, Enoch Arden; Poe, Manuscript Found in a Bottle. Frequent Compositions.

SECOND TERM—Brooks, English Composition, Book II, completed. Authors: Burke, Conciliation; Lamb, Tales from Shakespeare; Eliot, Silas Marner. Composition as in First Term.

ENGLISH IV. Five periods a week for two terms.

FIRST TERM—Halleck, History of American Literature. Authors: Selections, First Part of Introductory Lessons in English Literature by McNeill and Lynch. Composition once a week.

SECOND TERM—Halleck, History of American Literature, completed. Authors: Selections, Second Part of Introductory Lessons in English Literature by McNeill and Lynch. Composition as in First Term.

FRENCH I. Five periods a week throughout the year.

Elementary French. Elementary Grammar. Fasquelle's French Course, 35 lessons. Abundant Written and Oral Exercises. The Regular Conjugations. Careful Drill in Pronunciation. Class Recitations.

Super, French Reader.

FRENCH II. Five periods a week throughout the year.

Elementary French, continued. Fasquelle's French Course, 40 lessons. Written and Oral Exercises. Drill in Pronunciation. Class Recitations. Irregular Verbs.

Reading: De Monvert's "La Belle France" or Cramer's "Çà et Là en France."

GERMAN I. Five periods a week throughout the year.

German Grammar. Pronunciation. The Article. Declensions Adjectives. The Auxiliary Verbs. Simple Exercises in Translation. Numerals. Adverbs. Conjunctions. Order of Words. Selected Elementary Texts.

GERMAN II. Five periods a week throughout the year.

German Grammar, continued. Derivation and Composition of Words. Syntax. Intermediate German Texts.

GREEK I. Five periods a week for two terms.

FIRST TERM—White's First Greek Book to Lesson XXX. Babbitt's Grammar: Nouns, Adjectives, Adverbs, Pronouns, Conjugation of Regular Verbs. Exercises in Translation and Composition.

SECOND TERM—White's First Greek Book, completed. Babbitt's Grammar: Irregular Verbs, Syntax of Nouns, Adjectives and Adverbs. Composition. Selections from New Testament.

GREEK II. Five periods a week for two terms.

FIRST TERM—Xenophon's Anabasis, Books I–II. Babbitt's Grammar, Syntax of Verbs. Exercises in Composition.

SECOND TERM — Xenophon's Anabasis, Books III–IV. Grammar for Constant Reference. Mythology. Composition.

HISTORY I. American History and Civil Government.

FIRST TERM—American History. Five periods a week.

Discovery. Colonization. English, French and Indians. Catholic Missions. The English Colonies. The Revolutionary War: Causes; Events; Results. The Constitution. Organization of the Government. The War of 1812. The Mexican War. Slavery. The Civil War. The Period of Reconstruction. The New Nation. Growth and Development. Political, Economic, Social and Literary Conditions. The War with Spain. Territorial Expansion.

SECOND TERM—Civil Government. Five periods a week. Government: Its Origin, Necessity, Object, Functions. Forms of Government. Colonial Government in America. The Articles of Confederation. The Constitution. Legislative Department. Executive Department. Judicial Department. The

States: Their Relation to the Constitution. State Governments. Local Governments. Municipal Government. American Politics and Political Parties. International Law.

HISTORY II. History of England. Five periods a week throughout the year.

The Roman Conquest. The Anglo-Saxon Peoples. The Danish Kings. The Norman Invasion. Magna Charta. The Later Plantagenets. The Wars of the Roses. The Tudor Monarchy. Henry VIII and the Beginnings of Protestantism. Religious Disturbances. The Stuarts. Cromwell and the Commonwealth. Rise of Party Government. Struggle for Empire. The American Revolution. Internal Development. Foreign and Colonial Interests. England's Contribution to Civilization.

LATIN I. Five periods a week for two terms.

FIRST TERM—Bennett's Grammar. Inflections. Particles. Syntax of Nouns, Adjectives, Adverbs and Pronouns. Harkness' Easy Method, to Comparison of Adjectives. Oral and Written Exercises.

SECOND TERM—Bennett's Grammar. Syntax, of Verbs and Particles. Word Order. Sentence Structure. Harkness' Easy Method, completed. Frequent Exercises in Composition.

LATIN II. Five periods a week for two terms.

FIRST TERM—Caesar's Gallic War, Books I and II. Grammar, reviewed. Exercises in Latin Composition.

SECOND TERM—Caesar's Gallic War, Books III and IV. Written Exercises as in First Term.

LATIN III. Five periods a week for two terms.

FIRST TERM—Cicero's Orations against Catiline, I and II. Latin Prose Composition. Grammar for Reference.

SECOND TERM—Cicero's Orations against Catiline, III and IV. Composition and Study of Grammar as in First Term.

LATIN IV. Five periods a week for two terms.

FIRST TERM—Virgil's Aeneid, Books I and II. Prose Composition. Casserly's Prosody, with thorough study of rules and practical exercises in scansion. White's Mythology.

SECOND TERM—Virgil's Aeneid, Books VI and IX. Prose Composition. Prosody as in First Term. Mythology. Frequent Written Exercises in Class.

MATHEMATICS I. Five periods a week throughout the year.

Algebra. Simpler Forms of Equations. Algebraic Quantities. Definitions and Terminology. Fundamental Operations. Special Rules in Multiplication and Division. Factors and Multiples of Integral Algebraic Expressions. Fractions. Fractional, Literal and Simultaneous Linear Equations.

Text: Milne.

MATHEMATICS II. Five periods a week throughout the year.

Plane Geometry. Angles. Parallel Lines. Triangles. Quadrilaterals. Circles. Oral and Written Exercises.

Text: Milne.

MATHEMATICS III. Five periods a week throughout the year.

Advanced Algebra. Involution. Evolution. Surds. Doctrine of Exponents. Quadratic and Simultaneous Quadratic Equations. Ratio and Proportion. Direct, Inverse and Joint Variation. Arithmetical and Geometrical Progression. Permutations and Combinations. The Binomial Theorem. Summation of Series.

Text: Milne.

MATHEMATICS IV. Five periods a week for two terms.

FIRST TERM—Plane Geometry, completed. Proportional Lines, Similar Figures and Equivalence. Regular Polygons. Measurement of the Circle. Loci. Symmetry. Maxima and Minima. Planes and how determined.

SECOND TERM.—Plane Trigonometry. Logarithms and the Logarithmic Series are reviewed. The Measurement of Angles. The Trigonometric Functions. The Solution of Right Triangles. Trigonometric equations and inverse functions are taught and applied. Emphasis is placed upon the oblique triangle with special reference to the solution of problems in surveying.

Text: Milne.

PHYSICS I. Elementary Physics. Three hours class; four hours laboratory per week throughout the year.

An elementary course in the fundamentals of the science. The work will consist of lectures with demonstrations, recitations, problems and laboratory exercises.

The laboratory experiments will be of a quantitative character as far as is consistent with the ability of beginners.

Text: Carhart and Chute, First Principles of Physics.

SHORTHAND I. Five hours a week throughout the year.

Gregg Shorthand used exclusively. Complete mastery of the principles of Gregg Shorthand is the watchword of the first year's work.

Text: Gregg Shorthand.

SHORTHAND II. Five periods a week throughout the year.

Intensive application to dictation and transcription. Reading from selected books printed in phonography. Requirement: 80 words per minute for five consecutive minutes.

THE NEW MINIM HALL

SPANISH I. Four periods a week throughout the year.

Elementary Spanish. Elementary Grammar. Hills and Ford's First Spanish Course, 40 lessons. Abundant written and oral exercises. The regular conjugations. Careful drill in pronunciation. Class recitations

SPANISH II. Four periods a week throughout the year.

Elementary and Intermediate Spanish. Hills and Ford's Grammar completed. Irregular verbs. Idioms. Abundant written and oral exercises. Writing Spanish from dictation. Memorizing of easy short poems. Emphasis placed on careful, thorough work with much repetition rather than upon rapid reading or writing. Reading, Carolina Marcial Dorado's "España Pintoresca," or Pedro de Alarcon's "El Capitan Veneno."

TYPEWRITING I. Five periods a week throughout the year.

Touch system used exclusively. Complete mastery of the characters on the keyboard by means of carefully selected exercises. Letter writing. Legal work. Speed tests during latter part of the year.

Text: Fuller, The Touch Writer, Revised and Improved.

TYPEWRITING II. Four periods a week throughout the year.

Development of speed. Letter formation and arrangement. Study of duplicating devices.

Text: Fritz-Eldridge, Expert Typewriting.

Rev. JOHN L. SHERIDAN, A.M.
Homiletics

Rev. HENRY A. QUINN, A.M.
Sacred Liturgy

Rev. HUMBERT A. FALLES, Sc.B., Ph.B.
Canon Law

Ecclesiastical Seminary

No one will be admitted into the Seminary who has not completed the studies required for entrance. The applicant should bring testimonial letters from his Pastor, as well as from the Institution or Institutions where he studied before coming to our Seminary. These letters must bear witness to his good moral character and fitness for the service of God in the Sanctuary. He will also bring his Baptism and Confirmation Certificates.

Courses of Study

Dogmatic Theology

Four periods a week throughout the year.

The first year is devoted to Apologetics. During the second, third and fourth years the tracts are taken up in logical order. Theses and examinations are used to help students grasp the meaning of the matter studied.

Text: MacGuinness. Mazzella and De Augustinis for the study of special questions.

Course for 1922–1923 will begin with "De Deo Uno".

Moral Theology

Four periods a week throughout the year.

The first year's course embraces the tracts on Human Acts, Law, Conscience, Virtues and Sin. During the second, third and fourth years the tracts are taken up in the usual order. Theses and examinations.

Text: Tanquerey. Noldin and Lehmkuhl for consultation.

The course for 1922–1923 will embrace "De Virtutibus et Praeceptis."

Sacred Scripture

Three periods a week throughout the year.

This course embraces: A., General Introduction (Seisenberger; others consulted); B., Interpretation of Text, especially of St. Paul's Epistles (Piconio and McEvilly); C., Reading of the entire Bible, with short comments, special attention being paid to the text and meaning of the Psalms.

Course for 1922–1923 (A) Grannan, Vol. I. Seisenberger, page 121 ; (B) Second Epistle to Timothy ; (C) The Pentateuch.

Church History

The History Course is divided into four epochs: A. D. 1–680; A. D. 680–1054; A. D. 1054–1500; A. D. 1500–1900. Frequent disquisitions and examinations.

Course for 1922–1923 will take up the first epoch.

Canon Law

One period a week during four terms.

Nature and Sources of Canon Law. Development. Codification.

Texts : Codex Juris Canonici. Meehan, Third Plenary Council of Baltimore.

The course for 1922–1923 begins with Canon 1094.

Sacred Liturgy

One period a week throughout the year.

Definition of Liturgy; History; Sources. The Sacrifice of the Mass. The Sacraments and Sacramentals. The Divine Office. Other Ecclesiastical Functions.

Frequent opportunities are given to assist at the ceremonies of High Mass and other Church functions.

Fourth-year students are given individual instruction in the ceremonies of the Mass and the administration of the Sacraments.

Text: Wuest. Wapelhorst, O'Kane and DeHerdt for consultation.

Homiletics

Two periods a week.

Each seminarian is obliged to prepare and deliver one sermon each year. In addition, seminarians are required to prepare a series of sermons every year under the direction of the Reverend Professors of the Seminary.

Text: Potter's Sacred Eloquence.

Pastoral Theology

One period a week for two terms.

Text, Stang.

Gregorian Chant

One period a week.

Hebrew

One period a week during four terms.

First year in Hebrew (Goldin), Linear Abridged Bible (Magil). Some of the Psalms and parts of Genesis are usually chosen for study.

Pedagogy

In addition to the regular classes of Pedagogy in the College Department which the students of Philosophy attend, there is a series of lectures on Methods of Teaching and kindred subjects given to the students of the Seminary each year.

Sacred Art and Archaeology

Periodic lectures.

N. B. Students of Philosophy in the Seminary attend the classes and lectures of the College Department.

Charges—Seminary Department

Board, Tuition, Washing and Mending of Linen, Medical Attendance and Medicines, Gymnasium and Library Fees, per year. $300.00

Degrees

By a decree of the Faculty of Mount Saint Mary's College the following degrees are conferred:

The Honorary Degree of *Doctor of Laws* is conferred on:

JACOB HAY BROWN, Lancaster, Pa.
THE REVEREND MAURICE FRANCIS MCAULIFFE, Hartford, Conn.
THE REVEREND JOHN EDWARD WICKHAM, New York, N. Y.

The Degree of *Master of Arts* is conferred on:

JOHN FRANCIS CARROLL, Scranton, Pa.
JOSEPH JOHN CAVANAUGH, Trenton, N. J.
JEROME EDMOND DALY, Providence, R. I.
FRANCIS JOSEPH MILEY, Summit Hill, Pa.
CHARLES WILLIAM PRESY, Pittsburgh, Pa.
WALTER HENRY ROYER, Mobile, Ala.
JAMES JOSEPH SCANLON, Richmond, Va.
FRANCIS JOSEPH WIVELL, Wilkes Barre, Pa.

The Degree of *Bachelor of Arts* is conferred on:

THOMAS JOHN BARRETT, Troy, N. Y.
JOHN PATRICK BOLEN, Harrisburg, Pa.
JACOB HAY BROWN, JR., Lancaster, Pa.
WILLIAM HENSEL BROWN, Lancaster, Pa.
JOHN JOSEPH CHAPMAN, Centralia, Pa.
EDMUND RAYMOND CODY, Boise City, Idaho.
JOHN MASON CONNOR, Williamsport, Pa.
EDWARD GUILBERT CUSTY, Baltimore, Md.
JAMES THOMAS DENIGAN, Brooklyn, N. Y.
NICHOLAS JAMES FITZGERALD, Albany, N. Y.
CHARLES ALOYSIUS GABLE, Mount Carmel, Pa.
JAMES THOMAS HAYS, Emmitsburg, Md.
WILLIAM VINCENT KELLY, Tunnelton, W. Va.
JOSEPH FRANCIS LUKSIC, Wilkes Barre, Pa.
JOHN JOSEPH MCMULLEN, Cumberland, Md.
THOMAS MICHAEL O'DONNELL, Philadelphia, Pa.
FRANCIS LANGTON SLATTERY, Philadelphia, Pa.
FRANCIS HORTON SMITH, Pittsburgh, Pa.
PETER HOWARD SMITH, Albany, N. Y.

High School Certificates

Frederick Bernard Buettner, Baltimore, Md.
James Gallagher Cunningham, Natrona, Pa.
Frank John Giri, Pensacola, Fla.
Joseph Henry Gardiner, Brooklyn, N. Y.
Thomas Leary Golibart, Washington, D. C.
William John Knowles, Lansford, Pa.
Joseph Aloysius Loughrey, Philadelphia, Pa.
Patrick Francis Martin, Jr., Baltimore, Md.
Edward Daniel Meany, Hoboken, N. J.
John Farrell O'Gorman, Blackville, S. C.
James Coale Sappington, Libertytown, Md.
George Joseph Shaw, Jr., Brooklyn, N. Y.
Kenneth Joseph Sheerin, Coaldale, Pa.
Edward John Sweeney, Pittsburgh, Pa.
John Michael Tholl, Washington, D. C.

Honors

The honors of the College are awarded to the following students for the best written examination in the year's course in their respective classes:

COLLEGIATE DEPARTMENT

Senior Class—*The Gold Medal* to Edmund R. Cody, Boise City, Idaho.
Junior Class—*The Gold Medal* to John F. Hugues, Philadelphia, Pa.
Sophomore Class—*The Gold Medal* to Louis J. Mendelis, Wilkes Barre, Pa.
Freshman Class—*The Gold Medal* to Joseph V. Smarsh, Harrisburg, Pa.

Honorable mention for very close competition for the medal of the Senior Class is given to John P. Bolen, Harrisburg, Pa., and for close competition to J. Mason Connor, Williamsport, Pa.

Honorable mention for exceedingly close competition for the medal of the Junior Class is given to John F. Walsh, Cumberland, Md.

Honorable mention for exceedingly close competition for the medal of the Sophomore Class is given to Oliver D. Keefer, Pittsburgh, Pa.

Honorable mention for exceedingly close competition for the medal of the Freshman Class is given to Donal T. Mullane, Tompkinsville, N. Y., and Walter J. McCarty, Brooklyn, N. Y.

HIGH SCHOOL DEPARTMENT

Fourth Year Class—*The Gold Medal* to Frank J. Giri, Pensacola, Fla.
Third Year Class—*The Gold Medal* to Charles A. Selzle, Washington, D. C.
Second Year Class—*The Gold Medal* to Joseph M. Buckley, Pottsville, Pa.
First Year Class—*The Gold Medal* to Alfred Ynestroza, Honduras, C. A.

Honorable mention for very close competition for the medal of the Fourth Year Class is given to James G. Cunningham, Natrona, Pa.

Honorable mention for exceedingly close competition for the medal of the Third Year Class is given to Bernard C. Smith, Birmingham, Ala., and for close competition to John B. Cunningham, Natrona, Pa.

Honorable mention for close competition for the medal of the Second Year Class is given to Bernard J. Stettler, Woodlawn, Pa.

Honorable mention for close competition for the medal of the First Year Class is given to Hamilton C. Walker, Baltimore, Md., and Felix V. Goldsborough, Jr., Baltimore, Md.

MINIM DEPARTMENT

SECOND YEAR CLASS—*The Gold Medal* to CORNELIUS D. RYAN, Emmitsburg, Md.
FIRST YEAR CLASS—*The Gold Medal* to WILLIAM J. YNESTROZA, Honduras, C. A.

Honorable mention for very close competition for the medal of the Second Year Class is given to Louis J. Jongbloet, Washington, D. C., and for close competition to Roger C. McSweeny, New York, N. Y., and Joseph M. O'Connor, Mahanoy City, Pa.

Honorable mention for very close competition for the medal of the First Year Class is given to Kenneth P. Mullane, Tompkinsville, N. Y., and for close competition to Daniel F. Moore, Altoona, Pa.

1920-1921

Collegiate Department

SENIOR CLASS

JOHN P. BOLEN
Honor—English Composition
Second Honor—Geology, History, *ex æquo* Philosophy

WILLIAM H. BROWN
Distinction—Philosophy

EDMUND R. CODY
Honor—Christian Doctrine, English, Geology, History, Pedagogy, Philosophy
Second Honor—English Composition

J. MASON CONNOR
Second Honor—English, Pedagogy, *ex æquo* Christian Doctrine
Distinction—History

E. GUILBERT CUSTY
Second Honor—German

NICHOLAS J. FITZGERALD
Second Honor—*ex æquo* Christian Doctrine, Philosophy
Distinction—English

CHARLES A. GABLE
Distinction—Philosophy (Scientific Course)

JAMES T. HAYS
Honor—Physics

W. VINCENT KELLY
Honor—Philosophy (Scientific Course)
Second Honor—Physics

JOSEPH F. LUKSIC
Distinction—Geology, Philosophy

THOMAS M. O'DONNELL
Distinction—Philosophy (Scientific Course)

F. LANGTON SLATTERY
Distinction—English Composition

F. Horton Smith
Honor—German

Peter H. Smith
Distinction—History

JUNIOR CLASS

William M. Begley
Distinction—Political Economy

Joseph A. Cousins
Second Honor—ex æquo Christian Doctrine, Political Economy
Distinction—History, Pedagogy

Francis G. Driscoll
Second Honor—History, Pedagogy
Distinction—Political Economy

Carroll F. Fitzsimmons
Distinction—Political Economy

Charles P. Foy
Distinction—Political Economy

Daniel J. Hatton
Distinction—Christian Doctrine

John F. Hugues
Honor—History, Pedagogy, *ex æquo* Political Economy

Second Honor—Logic

Charles J. Tighe
Second Honor—ex æquo Political Economy
Distinction—History, Logic, Pedagogy

John F. Walsh
Honor—Christian Doctrine, English, Logic, *ex æquo* Political Economy
Distinction—English Composition, History, Pedagogy

SOPHOMORE CLASS

JOSEPH CARVIL
Distinction—Christian Doctrine

FRANK E. DEVER
Distinction—English, Greek, Latin

ANTHONY DZIENIS
Distinction—Latin

MILTON FITZSIMMONS
Distinction—Christian Doctrine, Latin

CHARLES J. HAMMER
Honor—French, Organic Chemistry
Second Honor—Physics

JOSEPH A. HAMPSEY
Distinction—Greek

OLIVER D. KEEFER
Honor—ex æquo Latin
Second Honor—English, Greek
Distinction—Christian Doctrine, English Composition, Mathematics

LOUIS J. MENDELIS
Honor—Christian Doctiine, English, English Composition, Greek, Mathematics, *ex æquo* Latin

EDWIN F. MURPHY
Second Honor—History, *ex æquo* Latin, *ex æquo* Greek
Distinction—Christian Doctrine, Mathematics

PETER A. O'QUINN
Second Honor—English, *ex æquo* Latin

PAUL J. REGAN
Second Honor—ex æquo German
Distinction—Physics

CYRIL J. ROTH
Distinction—Latin

RODOLFO RUIZ
Second Honor—Christian Doctrine

JOHN J. WOYTON
Honor—Physics

FRESHMAN CLASS

J. MANUEL BARRERA
Second Honor—Biology, *ex æquo* Chemistry

WILLIAM R. BONNER
Distinction—Chemistry

B. CARROLL CUNNINGHAM
Honor—Spanish
Distinction—Chemistry

CARL L. HEILMAN
Distinction—Mathematics

JAMES T. LYNG
Distinction—Mathematics

FRANCIS J. MAGILLIGAN, JR.
Second Honor —ex æquo Chemistry
Distinction—Biology, German

VINCENT G. MEADS
Honor—Biology

GERALD MULQUEEN
Honor— History, Physics
Second Honor—English, *ex æquo* Greek, atin
Distinction—Christian Doctrine

DONAL T. MULLANE
Honor—ex æquo Christian Doctrine

WILLIAM H. MCHUGH
Honor—ex æquo Latin
Second Honor—History

WALTER J. MCCARTY
Honor—Greek

EDWARD MCMORRIS
Second Honor—ex æquo Christian Doctrine

HUGH A. O'HARE III
Honor—Chemistry, *ex æquo* Biology

ARTHUR J. REILLY
Honor—English
Second Honor—Mathematics, *ex æquo* Christian Doctrine, Latin

L. BURKE STERLING
Second Honor—ex æquo Chemistry

JOSEPH V. SMARSH
Honor—ex æquo Latin
Distinction—Christian Doctrine, English

JOSEPH J. WEISS
Second Honor—French
Distinction—Christian Doctrine

High School Department

FOURTH YEAR CLASS

EDWARD A. ABBATICCHIO
Honor—English
Second Honor—English Composition, Physics
Distinction—Greek, Mathematics

GEORGE M. BAUMGARDNER
Distinction—Biology, Chemistry, Mathematics

JOHN A. BESHEL
Honor—Biology, Chemistry. Mathematics, Latin, *ex æquo* Christian Doctrine Greek

JOHN F. CONNORS
Distinction—Christian Doctrine, Physics, Latin

JAMES J. DESMOND
Distinction—Christian Doctrine

JAMES L. DESMOND
Distinction—Christian Doctrine, Greek

JOSEPH GARDINER
Second Honor—French

JOSEPH A. LOUGHREY
Second Honor—ex æquo German
Distinction—English Composition, Latin

PATRICK F. MARTIN, JR.
Second Honor—English

J. FARRELL O'GORMAN
Distinction—English Composition

JAMES C. SAPPINGTON
Honor—English Composition, French
Second Honor—Latin, *ex æquo* Christian Doctrine

GEORGE SHAW
Distinction—English

MATTHEW W. SHAW
Honor—Christian Doctrine, History
Second Honor—Latin

DANIEL J. SHEA
Distinction—Latin

KENNETH SHEERIN
Distinction—Christian Doctrine, Latin

EDWARD J. SWEENEY
Honor—Greek

THIRD YEAR CLASS

GEORGE E. ALEXANDER
Second Honor—ex æquo Christian Doctrine

HARRY J. AXT
Distinction—Mathematics

Acknowledgments

The President and Council thank the following friends for gifts during the year:

The Reverend George H. Tragesser, Emmitsburg, Md., Donation for Seminary.

The Right Reverend Monsignor John F. Kearney, '62, New York City, Set of the Catholic Encyclopedia for Students' Library.

The Reverend Philip J. Gallagher, '93, LL.D., D.D., Conshohocken, Pa., Donation of Standard Fiction for the Students' Library.

The Reverend Philip Farrell, A.B., Buckeystown, Md., Fiction for the Students' Library.

The Reverend Henry C. Jordan, Cedarhurst, N. Y., Books for the Seminary Library.

The Reverend William J. Munster, '04, Pittsburgh, Pa., German Helmet for Museum.

Messrs. Rodney Smith and Bruce Mills, A.M., Collection of Works for Chemical Library.

Martin D. Delaney, M.D., Alexandria, Va., Donation for the Students' Library.

The Reverend William H. Sheridan, A.B., '11, Albany, N. Y., Furnishings for Room in Minim Hall in memory of his mother.

Mrs. K. Fitzpatrick, Jamaica, L. I., N. Y., Furnishings for Room in Minim Hall in memory of her son, John Fitzpatrick, '24.

The Pittsburgh Alumni Association, Pittsburgh, Penna., Special Prize in Memory of Denis Æ. Behen, '94.

The Reverend William H. Sheridan, A.B,, John L. Flanigan, M.D., The Reverend Thomas J. Burke, A.M., Louis A. Giroux, A.B., The Reverend Walter J. Tobin, A.M., of the Class of 1911, Furnishings for Parlor in Minim Hall.

The Reverend Richard O. Gerow, '04, Mobile, Ala., Donation to New Minim Hall.

Mrs. J. Ledlie Gloninger, Emmitsburg, Md., Books for the Students' Library.

The Right Reverend Monsignor Stephen Walsh, '88, P.R., Pittsburgh, Pa., Furnishings for Room in Minim Hall.

Miss Agnes C. Cogan, '22, St. Joseph's College, Emmitsburg, Md., Painting of "The Immaculate Conception" for Parlor of the Minim Hall.

The Reverend John J. Meade, '84, Wellston, Ohio, Bequest to the College.

The Right Reverend Monsignor J. F. Glavin, Rensselaer, N. Y., Volume, "In Memoriam Right Reverend Monsignor James E. Duffy, LL.D., V.F.," Class of '60, for Seminary Library.

Hon. O. E. Weller, Complete Set of Congressional Record for Library.

U. S. Government Bureaus, for reports and other publications.

The Donors of the various prizes named elsewhere.

The Contributors to the Building Fund, a list of whom will be published later.

St. Joseph's College and Academy for Young Ladies

Emmitsburg, Maryland

This beautiful and commodious institution, fostered in the same nursery as Mount St. Mary's, has always held the highest reputation for the refined and virtuous education given to its pupils. It is situated in a lovely valley at the foot of the Blue Ridge, about two miles from the College, and about one-half mile from Emmitsburg.

The location, as well as the high standing of these two institutions, offers peculiar advantages to parents who have both sons and daughters to be educated; for both may be visited at the same time, and brothers and sisters have the opportunity of seeing one another every week during the course of the academic year.

Letters of inquiry should be addressed to the

MOTHER SUPERIOR,
St. Joseph's College and Academy,
Emmitsburg, Frederick Co., Md.

The Mountaineer

PUBLISHED BY

The Students of Mount Saint Mary's College

THE MOUNTAINEER is published monthly by a committee of the students. Its object is literary improvement, the chronicling of interesting happenings at the College, and the cementing in a more vital bond of fellowship, the members of the Alumni. Being of local and special interest only, it must rely for its support upon the students, the Alumni, and their friends, whose substantial aid is respectfully solicited.

THE STAFF (1921–1922).

Editor, F. Langton Slattery, '22
Local Editor, John J. McMullen, '22
Sports, J. Mason Connor, '22
Business Manager, E. Guilbert Custy, '22
